> ABS Double Color Sheet

ABS double - color plastic sheet is a kind of material for engraving, which is widely applied to production of signboard, lighting advertising board, gift arts, information board, interior decoration, commercial space sign systems and so on.

The main processing ways for double - color plastic sheet include cutting, sawing, carving, gilding, laser - treating, bending and bonding.

We can produce more than 200 colors
Thickness equal to or greater than 1.5mm, sculpture depth no more than 0.3mm
Surface thickness is 0.3mm, **bottom thickness** is 1.2mm
The size is 600mm x 1200mm

Inspection standard

● Surface scratches, spots are defective.
● Tearing part of the protective film to see whether it fades, if it does, can not be used
● Comparing the color difference with a batch of same color plate number, the better the smaller color difference. When the color difference is too large, the sheet can not be used.

It has been designed to provide the user with perfect surfaces for a variety of applications. This is why we offer different types of sheet materials.

- Exhibits brightest white
- Constant Uniform Smooth Finish
- Easily fabricated, cut and handled
- Low water absorption
- High chemical resistance
- Light weight
- Printable and can be laminated
- Good insulation
- Lower heat transmission
- Non - toxic
- Flammability - self Extinguishing
